Enhance Interest Technology Sdn Bhd

El Technology is a corporate business consultancy which specializes in IT Consulting in the Malaysian and Asian markets.

Optimize your Business Performance

El Consulting's mission is to optimize your business performance and results by offering a host of innovative business improvement services and solutions. We offer you the possibility to focus on your core strengths through Enhance Interest's "CCC Engagement"

CCC Engagement

- Confidentiality*** through a non-disclosure agreement from the start of our relationship. This is why we do not provide case studies or client references. Your confidentiality is important to us
- Competencies*** thanks to our extensive experience, as demonstrated through our track record and many certifications.
- Compliance*** with local regulation and law to safeguard your business from unnecessary threat

WHAT DOES IT MEAN TO YOU ?

Your Benefits

Focus thanks to our services, you do not need to micro-solve everyday challenges - your time is freed to work on your strategy.

Efficiency by relying on EI to delegate and outsource your Information Technology needs.

MNC Facilities thanks to EI's innovative business improvement services and solutions.

El Technology – Information Technology Services

In order to succeed in their respective markets, organizations need to get away from micro-solving everyday challenges. They also need to stop worrying about whether or not their IT infrastructures work, are efficient or up-to-date. IT ought to be a business asset, not a liability.

EI Technology has understood and acted upon this need for businesses to embrace technology. This has resulted in the strong growth of our IT division, which in turn has led us to create a subsidiary focused only on the IT industry: EI Technology Sdn Bhd.

EI Technology's solutions are aimed at helping you enhance the business value of your IT investment through improved operational efficiency and service levels.
